

CPAP Systems

SleepStyle™ 600 CPAP Series with ThermoSmart® Technology

The SleepStyle™ 600 CPAP Series is a truly integrated Continuous Positive Airway Pressure (CPAP) generator with a heated humidifier, designed for the treatment of Obstructive Sleep Apnea (OSA) in adult patients.

The SleepStyle™ 600 CPAP Series comprises ThermoSmart® Technology, a unique Fisher & Paykel Healthcare technology that allows for optimum levels of humidity independent of room temperature. The levels of heated humidification provided are up to 50% higher than conventional humidifiers are able to deliver (up to 30mg/l). This technology also prevents* condensation from forming to ensure optimal pressure is delivered at the mask.

Automatic voltage detection, DC inverter compatibility and manual altitude adjustment make the SleepStyle™ 600 CPAP Series ideal for traveling.

* Subject to the Operating Conditions specified in the applicable Operating Manual.

Specifications	Description
Dimensions Weight (with Chamber) Electrical Rating: • Supply Voltage • Inverter • Pressure Range	10.7" x 6.7" x 6.9" (273mm x 170mm x 175mm) 2.1kg (3.4kg packaged in bag incl. accessories) Mains voltage automatically detected 115V – 200W/300W surge 230V – 300W/500W surge 4 to 20 cmH ₂ O

Product Code	Description	Quantity
HC604	SleepStyle™ 600 CPAP Series with ThermoSmart® Technology	1
HC608	Includes: • Carry Bag • Water Funnel • HC365S Water Chamber - standard • HC360 Water Chamber - extended life ** • 900HC522 Heated Breathing Tube • 900HC240 Filter	1 1 2 1 1 1

The following table lists the main difference in features across the SleepStyle™ 600 product range.

Model	Fully Integrated CPAP with Heated Humidification	Patient Compliance Monitoring (LCD & Download)	Auto-Altitude Adjustment/ Leak Compensation
HC604	✓	✓	–
HC608	✓	✓	✓
