

THOR

MANUFACTURING

Model #: TH400

Now Available

Features:

Full Output Power: 400 Watts (Other inverters have reduced output over time.)

High Surge

High Speed Low Noise Cooling Fan

Ground Fault Sensing

Electronic Circuit Protection:

•Overload Protection – Inverter will automatically shut down if load exceeds inverter rating.

•Smart Surge Control - Inverter will attempt to start loads above the continuous rating for up to 10 seconds.

•Voltage Protection - Whenever the input exceeds 15 volts DC or is less than 10 volts, the inverter will automatically shutdown.

•Short Circuit Protection - Automatically shuts down until short circuit is removed.

•Thermal Cutoff - Automatically shuts down if internal temperature exceeds safe design parameters.

Specifications:

Continuous output power: 400 Watts

Surge power capability (peak power): 800 Watts

DC input / operating voltage: 11 to 15 Volts

Output voltage: 120 Volts ac / Output frequency: 60 Hz / Output wave form: modified sine wave

Battery low voltage shutdown: 11.0 +/- 0.5 Volts High input voltage protection: 15V

No load current: < 0.40 Amps

Full load efficiency: 90%

AC Output Socket Type: Double Type 2 -2 prong

Fuse protected
