

### AEIOMed HeadRest® Mask

- stays in place
- no facial straps or pads to cause skin irritation
- adjustable nose pieces allow for a perfect fit

### Your Everest® 3 Gives You Peace of Mind

- only CPAP available with optional battery that runs both the CPAP and the heated humidifier
- lets you sleep through the night, even in power outages
- automatically recharges when plugged in

### Your Everest® 3 Goes Anywhere

- small, compact and portable
- mobile power adapter powers your Everest® 3 and humidifier and recharges the battery when you can't get to an electrical outlet

### Affordable

Purchasing a CPAP is an important decision. In addition to being comfortable, dependable and portable, your Everest® 3 is affordable. Compare the Everest® 3 to other similarly priced CPAPs on the market and you will find it offers functions the others skimp on: quietness, automatic altitude adjustment, leak compensation, an optional data card to help you stay compliant with your therapy, and an optional integrated battery and mobile power adapter that give you the freedom to go anywhere. It is one of the smallest, most compact CPAPs available, and yet it gives you so much.

### Why Choose the Everest® 3 CPAP System?

Wherever life takes you, depend on the Everest® 3 CPAP system. No other CPAP system can offer the function and portability of the Everest® 3. It truly is the "Go anywhere CPAP."

- ✓ Fully integrated system
- ✓ Comfortable and quiet at only 28 decibels
- ✓ Adjustable pressure and proprietary ramp settings
- ✓ Heated humidifier
- ✓ Portable, rechargeable battery that lets you sleep through the night wherever you go
- ✓ Small and compact for easy travel
- ✓ An optional mobile power adapter
- ✓ The most comfortable mask brand available—HeadRest®

Choose AEIOMed's Everest® 3 CPAP system to get a good night's sleep anywhere... and live your life to the fullest.

Sleep Better.  
Anytime.  
Anywhere.

Your Everest® 3 CPAP – The Go Anywhere CPAP

## Your Everest® 3 CPAP is Completely Integrated

The Everest® 3 CPAP system includes the Everest® 3 CPAP, optional heated humidifier, optional portable battery, and optional mobile power adapter.

Obstructive sleep apnea (OSA)—left untreated or treated with an ill-fitting CPAP and mask—impacts your nights and your days. A good night's sleep improves your overall well-being, health and attitude. Life doesn't stop because you have OSA and AEIOMed doesn't think sleep apnea should stop you from living life. We recognize you always want a good night's sleep, anytime and anywhere. That's why we make CPAPs that are comfortable, dependable, portable and, of course, affordable.

### Your Comfort Matters

Falling asleep is easier with the Everest® 3, AEIOMed's newest CPAP. The Everest® 3 CPAP is quiet and comes with adjustable pressure and proprietary ramp settings, so the therapy pressure and amount of time needed to reach the prescribed pressure level can be set to your specific needs. Adding to your comfort is an optional adjustable heated humidifier. All three features—quietness, gradual increase in pressure, and warm moist air—let you fall asleep with ease.

A comfortable mask is as important as the CPAP when you want to sleep through the night. Although the Everest® 3 can be used with just about any mask available, AEIOMed recommends the HeadRest® Mask. This mask is quiet, comfortable and suited for use with the Everest® 3.

**Dependable  
All the Time**

Your Everest® 3 provides you with uninterrupted sleep. The optional portable battery keeps your CPAP and humidifier working through the night, even during power outages. No other CPAP on the market does that. And, when your Everest® 3 is plugged into an electrical outlet, the battery automatically recharges so it's ready to use again.

**Go Where  
You Want**

One of the smallest CPAPs on the market, your Everest® 3 is compact and portable. You can easily take it with you when you travel for business or pleasure, even where power is unavailable. An optional mobile power adapter can be used to power your Everest® 3 and recharge the battery from any 12-volt power source. Wherever life takes you—camping in the wilderness, sailing on the ocean, or taking an inter-continental flight—you can count on your Everest® 3. Plug it into a standard power source, use the mobile DC power in your camper or vehicle, or rely on the battery power to get a great night's sleep anytime, anywhere.
